

Membrane Support Chemicals

TriPol™ Antiscalants

MANN+HUMMEL Water & Fluid Solutions reached an agreement with Xelera to service our membrane support chemical customers. Virginia-based distributor Xelera has been a blending partner of MANN+HUMMEL Water & Fluid Solutions for years. Their team has years of field experience, emphasizes a service-oriented offering, and blends a complete line of chemical products. To place an order for membrane support chemicals, email mdorders@xelera.us or call +1 (540) 389-5232.

Extensive knowledge of membrane fouling characteristics allowed MANN+HUMMEL Water & Fluid Solutions to develop its own line of membrane support chemicals including cleaners, antiscalants and other support chemicals. TriPol™ antiscalants provide maximum protection against membrane scale and have the following features and benefits:

- NSF certified drinking water treatment chemicals
- Guaranteed compatibility with today's membrane technologies
- Chemical dosing projections available upon request
- Concentrated versions available to reduce shipping costs

MANN+HUMMEL Water & Fluid Solutions' Technical Service Team is always available to create an antiscalant dosing regimen to help improve your membrane system's performance. Please do not hesitate to contact MANN+HUMMEL Water & Fluid Solutions regarding your membrane support chemical needs.

TRIPOL™ ANTISCALANTS

| Product | NSF Certified | Concentrated Chemical | Available Sizes (gal) | Target Species |
|--------------|---------------|-----------------------|-----------------------|----------------------------------|
| TriPol™ 9510 | ✓ | - | 5, 55 | Carbonates, sulfates, silica |
| TriPol™ 9010 | ✓ | - | 5, 55 | Carbonates, sulfates, phosphates |
| TriPol™ 8510 | ✓ | - | 5, 55 | Carbonates, sulfates, metals |
| TriPol™ 9525 | - | ✓ | 55 | Carbonates, sulfates, silica |
| TriPol™ 9025 | - | ✓ | 55 | Carbonates, sulfates, phosphates |
| TriPol™ 8525 | - | ✓ | 55 | Carbonates, sulfates, metals |
